

# Thejan Bandara

- I have a solid foundation about web development principles and able to build responsive and interactive web pages from scratch using HTML, CSS and JavaScript. I am also familiar with modern web development frameworks including React, Node.js etc.
- Also, I have a fundamental understanding of API integration, backend technologies and DBMS (both SQL and NoSQL) along with hands-on experience in version controlling with Git.
- I have the ability to work effectively in a team, communicate efficiently and professionally with clients and team members and contribute to achieve project goals successfully.
